

3. Next, lay the strip across the light bulb. Smooth it down.

4. Then take another strip of paper, dip it in the glue, and lay it across the bulb in another direction.

5. Keep going until the bulb is completely covered with paper.

6. Keep rubbing your hands over the light bulb to make it smooth.

7. Add at least two layers of newspaper.

8. Your teacher will show you how to add a nose to the light bulb puppet.

9. Now cover the light bulb with colored tissue paper. Add strips of tissue paper and smooth them with your hands just like you did with the newspaper.

10. Keep adding more colored tissue until you can't see the newspaper through it. Then you can leave your puppet to dry.
